Profile

I became interested in technology 3 years ago when I quit my job and enrolled into a community college to study computer programming. Since graduating, I have quit my job and enrolled in digitalCrafts an immersive coding bootcamp. I am passionate about technology and currently looking for opportunities in Atlanta. My newly acquired skills and interest in the industry would make me an asset in any organization.

Skills

Web Development
I have learned the following technologies in the past 3 years: Java, MySQL, HTML, CSS, Bootstrap, Javascript, Postgres, Python, SQL, Node, jQuery. I am currently learning react, angular2 and redux.

Experience

Shaw industries   2014-2017
Elutriation operator

Contributed to surpassing yearly records processing recycled carpet. I was consistently recognized for punctuality and working overtime.

Crete Carriers   2012-2014
Long haul truck driver

Accumulated over 150,000 miles without incidence delivering various goods nationally. Recognized as best new driver in 2013 for the Marietta, Georgia terminal

Education
